PROFILE

Aspiring Data Analyst with hands-on experience in Python, SQL, Power BI, Tableau, Excel, and Data Visualization. Skilled in Data Cleaning, Exploratory Data Analysis (EDA), Dashboard Development, KPI Reporting, and Business Analytics. Passionate about transforming raw data into actionable insights that drive business decisions.

TECHNICAL SKILLS

Languages: Python, SQL

Data Analysis: Pandas, NumPy, EDA, ETL, Data Cleaning

Visualization: Power BI, Tableau, Excel, Matplotlib

Databases: MySQL

Tools: Git, GitHub, VS Code

Business Analytics: KPI Reporting, Dashboard Development, Data Visualization

EDUCATION

ICFAI University, Hyderabad, Telangana

2022–2026

B.Tech in Data Science and Artificial Intelligence

PROJECTS

Customer Churn Analysis | Python, SQL, Power BI

- Analyzed 7,000+ customer records from IBM Telco dataset to identify churn behavior and retention trends.
- Performed data cleaning, EDA, and KPI analysis using Python, Pandas, and SQL.
- Built interactive Power BI dashboards for customer segmentation and churn insights.

Credit Card Fraud Detection & Risk Analysis | Python, SQL, MySQL, Tableau

- Developed an end-to-end fraud detection system using 280K+ financial transactions.
- Built machine learning models using Logistic Regression and Random Forest algorithms.
- Created Tableau dashboards with fraud percentage analysis and transaction risk KPIs.

Retail Sales Analytics Dashboard | SQL, Python, Tableau

- Developed an interactive Tableau dashboard for sales, profit, and regional performance analysis.
- Created KPI visualizations and dynamic filters to generate business insights.
- Improved reporting efficiency through automated data preprocessing workflows.

EXPERIENCE

Data Analyst Dashboard Development Intern

Jul 2025 – Dec 2025

UVXYZ Company

- Developed and managed the admin dashboard for the Eruvaka Foods e-commerce platform using Django.
- Implemented product categorization, star labeling, and dashboard management features.
- Optimized backend operations and cart functionality to improve user experience.

CERTIFICATIONS

- Deloitte Australia Data Analytics Job Simulation (Forage)
- Power BI and Tableau Dashboard Development Certification

ACHIEVEMENTS

- Developed and deployed multiple analytics and dashboard projects using Python, SQL, Power BI, and Tableau.
- Built and hosted a responsive portfolio website using GitHub and Vercel.
- Strong interest in Data Analytics, Business Intelligence, and data-driven decision-making.
