SUMMARY

Data Analyst and Backend Developer skilled in Python, SQL, Power BI, and Django. Experienced in data analysis, dashboard creation, REST APIs, and scalable web applications. Passionate about transforming raw data into actionable business insights and solving real-world problems using data-driven approaches.

EDUCATION

ICFAI University

B.Tech in Data Science and Artificial Intelligence

Hyderabad, Telangana

2022 – 2026

SKILLS

Programming: Python, SQL

Data Analysis: Pandas, NumPy, Data Cleaning, EDA

Visualization: Power BI, Matplotlib, Excel

Web Development: Django, REST APIs, React

Tools: Git, VS Code

Soft Skills: Problem Solving, Communication, Analytical Thinking

EXPERIENCE

Backend Developer Intern

2025

UVXYZ Company

- Built a dynamic product dashboard using Django with full CRUD functionality.
- Developed cart management features with add, remove, and update operations.
- Integrated Django REST APIs with React frontend for seamless user interaction.
- Implemented dynamic pricing logic and optimized backend performance.
- Designed and connected contact form APIs for data handling and user communication.

PROJECTS

Customer Churn Analysis | Python, SQL, Power BI

- Analyzed customer churn patterns using the IBM Telco dataset.
- Performed data cleaning, EDA, and KPI analysis to identify customer retention insights.
- Built interactive Power BI dashboards for churn trends and business decision-making.

E-Commerce Dashboard System | Django, React

- Developed a full-stack web application with product management and cart functionality.
- Implemented dynamic pricing and user interaction modules using REST APIs.

Sales Data Analysis Project | SQL, Python

- Developed an interactive Tableau dashboard for sales, profit, and regional performance analysis using MySQL and SQL.
- Created KPI visualizations and dynamic filters to deliver actionable business insights from retail sales data.
- Cleaned, transformed, and imported large sales datasets into MySQL using Python and Node.js automation.

CERTIFICATIONS

- Data Analytics and Visualization Certifications
- Python and SQL Practice Projects

ACHIEVEMENTS

- Built multiple real-world analytics and backend development projects.
- Continuously improving problem-solving and data visualization skills.
